"Our first day of ticket sales went great!! The VIP tickets sold out in 13 minutes and we sold nearly 1000 General Admission tickets in the first 2 hours. I have to give your awesome billboard spot credit for a lot of that success! Thank you so much!"

– Rachel Fasig,
Marketing Director,
Suwanee Beer Fest

"We really enjoy working with you and are confident that once the graphics leave our hands, they will appear on the e-board right on time. It is funny, every time a new one goes up, someone will call me to say they saw it – so I know it is working."

– Linda Heard,
Downtown Manager,
City of Cumming

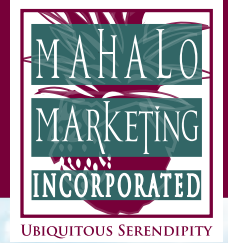

"Business improved with greater visibility with the billboard. Not all ads need to be internet ads and the billboards were very cost effective and more than justified the reasonable costs. Will definitely use Mahalo and Kathy Kull again!"

Tri-vision billboards are divided into vertical strips that rotate on a timed schedule. The shift and movement in messaging automatically draws eyes to the design.

Tri-visions are known to engage the audience as they anticipate reading the next message.

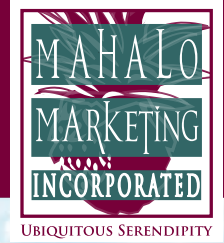

STATIC:

The most traditional billboard style has proven effective for years and is not reliant on technology. Even amidst power outages or other uncontrollable acts, your message will remain big, bold & vibrant.
